

METAZA MPX-80 AND MPX-70

Photo Impact Printers

Roland Photo Impact Printers quickly turn ordinary gifts and promotional items into cherished mementos. The MPX-70 permanently imprints photos into items like pendants, dog tags and key chains. The new MPX-80 takes it even

further by customizing curved objects like pens, cuff links and money clips. Both can add impact to business events with unique personalized awards.

Advanced Solutions Division

A Complete Creative Solution

The MPX-80 and MPX-70 are complete solutions that come with everything required to start and run a successful business. Included easy-to-use design software accepts artwork, design and photos from a variety of sources including digital cameras, mobile phones, jpg or bmp files, and common design files such as Adobe ai and eps.¹ With the MPX-80's METAZAStudio software, you can choose from a wide variety of TrueType fonts and wrap your text around an arched line or the contours of your design. METAZAStudio generates both single-stroke and fill fonts.

¹ The MPX-80 imports Adobe Illustrator version 7 and 8.

No Special Training Required

The MPX-80 and MPX-70 are incredibly easy to operate, even without any professional engraving experience. Simply plug in your USB cable and you're ready to begin. The sleek desktop design fits perfectly in any jewelry store, mall kiosk or photography studio. The MPX-80 comes with a center vise and adhesive pad to position items securely in place and a detailed instruction manual with directions for changing the head and other simple tasks.

Fast and Convenient

The MPX-80 and MPX-70 work quickly so your customers don't have to wait. Thirty percent faster than a traditional engraver, the MPX-80 imprinted this bookmark with 2mm text in well under a minute.²

² Test conducted by Roland DG.

Roland Photo Impact Printers quickly and easily adds text, photos, logos and illustrations to a wide variety of items from souvenirs and plaques to charms and pendants. Their advanced cartridge strikes metal surfaces³ with high speed and precision, leaving durable photographic impressions of your original design. They remove no material and operate quietly, making it ideal for jewelry stores, mall kiosks and stationery stores.

³ The MPX-80 and MPX-70 imprint on a variety of materials including platinum, gold, silver, brass, stainless steel, aluminum and acrylic. Some shapes can not be imprinted.

Three easy steps to imprinting with METAZA

1 Design

2 Secure item in place

3 Press Print

Add instant value to a wide range of jewelry and gifts, turning them into treasured mementos.
