

NOW: Faster sew speeds, larger sew field, networkable, added accessories, much more!

AMAYA BRAVO

A World Class Embroidery Machine with
Commercial Production Capabilities

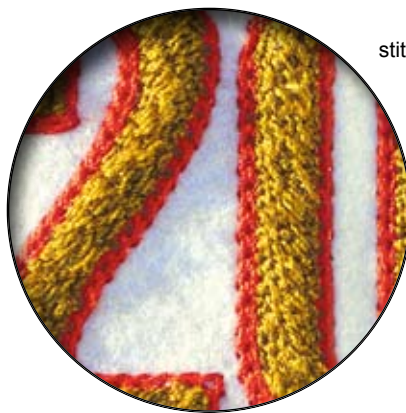

AMAYA BRAVO

The BRAVO beautifully embroiders:

- Shirts
- Blankets
- Pockets
- Pants/Jeans
- Caps
- Bags
- Jackets
- Leather

Combine the BRAVO with DesignShop V9, and create beautiful effects with Fancy Stitches.

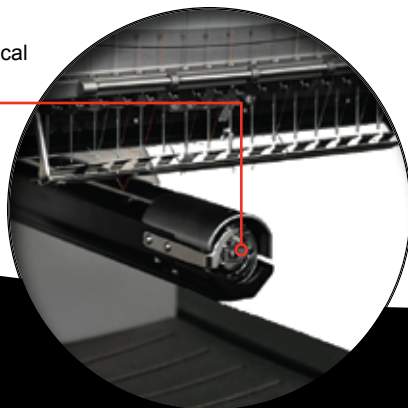

BRAVO effortlessly stitches micro chenille.

Micro Cylindrical Hoop enables stitching on small areas such as pockets and shirt sleeves.

Smallest Cylindrical Lower Arm

Features:

The **AMAYA BRAVO** high performance embroidery machine is the first of its kind to hit the market.

Here are some note-worthy AMAYA BRAVO features:

- 16 needles for high production output.
- Multi-Head capability; operate up to four BRAVO machines on a single network.
- Easy cap sewing, includes Wide Angle Cap Frame (270° radius, 14.25" x 3.23" sewing field).
- Patented Acti-Feed™ thread delivery/auto-tension system, enables blazing-fast sew speeds up to 1100 stitches per minute.
- Smallest cylindrical lower arm enables embroidery on a wide variety of products at high speed.
- Largest true sewing field, perfect for jacket backs (16.1" x 15.7"). Includes jacket back hoop (17.25" x 11.75").
- Compatible with home and commercial file formats, includes Sizer/viewer software and 2,000 embroidery designs.
- Includes DesignShop V9 Digitizing Software with Vector Option.
- Made in the USA.

The AMAYA BRAVO 16 needle professional embroidery machine offers businesses of any size powerful embroidery capabilities at an affordable price.

The AMAYA BRAVO can embroider apparel, caps, bags, and a wide variety of textiles with beautiful quality. Based on the powerful AMAYA XTS embroidery machine platform, the AMAYA BRAVO produces the professional quality embroidery your customers demand.

Embroidered goods are in demand and the AMAYA BRAVO is built to produce!

DesignShopV9

The BRAVO machine is compatible with Melco's DesignShop V9 software. DesignShop V9 embroidery software allows the user to edit, digitize, and sew beautiful designs. Send a design from DesignShop V9 to the BRAVO and watch it come to life.
