ProPen's Engravers Are The Perfect Value Added Personalization Solution. Ideal for Retail Environments and Production Shops

BESTBLANKS.com is pleased to offer these easy-to-use standalone engravers:

The TagCube, RingCube and the Easygrave!

Hollywood, FL, 2/20/2012- **BESTBLANKS.com** is pleased to announce the addition of ProPen and Easygrave engraving lines. These product lines consist of the TagCube, RingCube and the Easygrave. All are unique and standalone engravers that are affordable turnkey solutions for all types of businesses offering engraving services or those who want to add value added engraving services. The TagCube engraves on key tags, phones, lighters, pens and much more! The RingCube is ideal for the jewelry market and can engrave on the outside or inside of rings and bracelets quickly and easily. The Easygrave can engrave on plastic and metallic material up to sizes 12"x 8.26" (305x210mm). Because none of these engravers require a computer they are all ideal for creating keepsakes right in front of your customers eyes. These engraving solutions are so simple to operate no special training is required.

Howard Gerson, President of BESTBLANKS.com says, "ProPen's and Easygrave's sleek compact design with the picture driven software, does not require a computer and are affordable solutions to diversify your services and an ideal way to provide immediate results for immediate customer satisfaction. For more information please visit our website or call us today."

With decades of digital decorating experience in sublimation, heat transfer printing, DTG, sign making and others, BESTBLANKS.com brings hands on experience that translates into saving our customers time and money.
